Tempering box

Item number: 7203818

The correct temperature is essential for cartridges when pressing out. To achieve this, a tempering box is recommended. Temperature control is possible at up to $\pm 30\text{ }^{\circ}\text{C}$ above/below the ambient temperature. An integrated voltage monitor prevents the car battery from discharging. With digital temperature display and connection for 230 Volts AC and 12 Volts DC.
